iPad (6th generation)

iPad

[Tech specs >](#) [Learn more >](#)

iPad Air

[Tech specs >](#) [Learn more >](#)

1. The iPad Pro display has rounded corners. When measured as a rectangle, the iPad Pro (12.9-inch) screen is 12.9 inches diagonally and the iPad Pro (11-inch) screen is 11 inches diagonally. Actual viewable area is less.
2. Display size is measured diagonally.
3. Available space is less and varies due to many factors. A standard configuration uses approximately 10GB to 12GB of space (including iOS and preinstalled apps), depending on the model and settings. Preinstalled apps use about 4GB, and you can delete and restore them. Storage capacity is subject to change based on software version, and may vary by device.
4. Accessories are sold separately.
5. Size and weight may vary by configuration and manufacturing process.
6. Battery life varies by use and configuration; see apple.com/au/batteries for more information.
7. FaceTime calling requires a FaceTime-enabled device for the caller and recipient, and a Wi-Fi connection. Availability over a mobile network depends on carrier policies; data charges may apply.
8. Data plan required. Gigabit-class LTE, 4G LTE Advanced, 4G LTE, and Wi-Fi calling are available in select markets and through select carriers. Speeds are based on theoretical throughput and vary based on site conditions and carrier. For details on LTE support, contact your carrier and see apple.com/au/ipad/LTE.
9. Mobile data plan is sold separately. The model you purchase is configured to work with a particular mobile network technology. Check with your carrier for compatibility and mobile data plan availability.
10. Not all carriers support Apple SIM and eSIM. See your carrier for more details. Not available in China (mainland). The eSIM technology works with the iPad Pro (11-inch), iPad Pro (12.9-inch, 3rd generation), iPad Air (3rd generation), iPad (7th generation) and iPad mini (5th generation). Apple SIM works with the iPad Pro (9.7-inch), iPad Pro (10.5-inch), iPad (5th and 6th generation), iPad Air 2, iPad mini 3 and iPad mini 4.
